

Stonecrockt is proud to be building custom homes in Poplar Woods. Poplar Woods is Canfield Developments newest neighborhood in Oldham County. Poplar Woods is located on Highway 42 in Goshen just north of the Goshen Store. This spectacular 203 acre development is only the third Conservation development in the history of Oldham County. Part of the original Belknap property, Land 0' Goshen Farm, this property had been in the Belknap family since 1917. This wooded, gently rolling property, **features 93 estate size lots and over 103 acres of permanent open space**. Every single lot backs up to wooded open areas, creeks or a lake.

These are the most breathtaking lots Canfield Development has ever developed. Truly one of a kind! Stonecrockt will begin construction on their first home in Poplar Woods in mid-March 2008. Home prices will begin at around \$650,000. Call David Lutes or Jason Black of Stonecrockt Homes at 523-7041.
